Motivated Web Developer and Automation Hero with over 5 years of experience, adept at creating and updating landing pages. As a proficient and creative WordPress developer, I have a strong background in website management and development, coupled with expertise in SEO and CRM campaign creation. I excel in all aspects of WordPress website creation, including design, plugins, and implementation, and am skilled in developing engaging and interactive websites.

I thrive in team projects and leadership roles, demonstrating a detail-oriented approach and knowledge in various programming languages. My dedication to superior customer service spans from the initial client meeting to ongoing website maintenance post-launch. As an Automation Hero and Web Developer Manager, I bring a passion for seamless digital experiences and a commitment to helping businesses grow online.
